Subject: RE: Presentation for CFAC Community Liaison Panel on 1/21

Hi Cynthia,

This looks good, I think it's needed to add another slide to discuss the Liaison Panel etc. The only other thing we can discuss is the idea that this is outside of the city of Columbia Falls and is private property, but there are still options for reuse. What do you think?

Mike

Subject: Presentation for CFAC Community Liaison Panel on 1/21

Hi, All.

Attached is a rough draft of my presentation to the CFAC Community Liaison Panel. I thought it might be a good idea to recap a bit of Mike's presentation to them about the Superfund Process to kick off the presentation. The two main topics I then wanted to cover were the CIP and the formation of a CAG. I want to add another slide about the CAG options available to the community (Keep the Liaison Panel as is, the Liaison Panel becomes the CAG, form a CAG as well as continue with the Liaison Panel, etc.), but I ran out to time this afternoon. I'd also like to add some graphics for visual interest. If you have anything that fits, please forward them to me.

I'd appreciate any and all comments, suggestions or edits.

Thanks, and Happy New Year!
Cynthia
